

Naturally distinctive, classically inspiring

Welcome in the colours and textures of the autumn with the exquisite new Timberland Limited Collection.

The Timberland Limited Collection is inspired by over 30 years of Timberland's® heritage. Uniting traditional craftsmanship with innovation, this collection features premium materials such as Italian cashmere, Merino wool, Italian leathers and Harris Tweed to create new products with a distinctive feel and character.

The collection includes shirts, sweaters, trousers, jackets and outerwear as well as footwear, and accessories. Meticulous attention to detail is coupled with a careful choice of natural materials chosen for their extraordinary softness, comfort and breathability or for their rugged performance, warmth and lightweight water resistance. This allows you the luxury of feeling equally at home stomping across the leafy English countryside or strolling down the stylish King's Road.

The crafting of a single pair of shoes from the Timberland Limited Handcrafted Footwear Series requires the combined skills of twelve craftspeople. Starting with the finest quality leathers and raw materials, the shoes gradually take shape as they are passed from person to person, each applying their own individual talents. The process results in a finished shoe with exceptional quality, comfort and durability.

Whatever style you are looking for this autumn the formula for the Timberland Limited Collection is simple. Start with exceptional quality materials and place them in the hands of skilled craftspeople. Add innovative new technologies and the result is a premium product designed for people who demand nothing less than the best. Go on, treat yourself.
