Are you ready for the mince pies, panto and those mistletoe moments? Are you looking the height of festive chic or more like one of Santa's helpers? Check out the Topman flagship store at Oxford Circus: two floors of top kit and the latest in looks so hot, they're cool.

Go 50s retro in the best denim, Ts and Harrington jackets. Up your hard rock quota with soft leathers. Or find the true Brit in you with the simplest of classic macs and country checks.

All in all, Topman has the diamond contemporary clobber that, Superman-like, will turn you into that handsome devil you just know is lounging within: some of the best brands, from Moto to Quicksilver and Willson, as well as international names such as Calvin Klein and Levi's. Transform yourself into a veritable centrespread of killer cuts and colours.

And when you've picked up the best in affordable fast fashion, how about a quick spin on the free games consoles first? Or turn your attention to something much more important: footie, with a kick-about on one of Topman's classic table football games. Keep your eye on

the ball: don't be distracted by the giant video screens pumping the latest tunes. You could even top off your visit with a touch of grooming at Topman's in-store barbers Fish, for the best cuts for a mere snip.

Shopping can be such a bore. Not any more. Not at Topman.
