The beauty of our toothpaste is it keeps your teeth strong

Every time you eat, the acids formed from sugars in food can attack the enamel on your teeth, causing mineral loss invisible to the naked eye.

Macleans Remineralise not only cleans your teeth but if used daily is scientifically proven to intensify the replenishment of lost minerals, helping restore your tooth enamel and keep teeth strong.

Think of it as making the most of your good points. All 32 of them.
