If there's one thing you know how to do, it's how to have a good time. You can't help but light up the room with your exuberant, eclectic style: you're hot on the heels of boho princesses Sienna Miller and Kate Moss, teaming fabulous vintage finds with modern girl pieces. Skinny jeans and suede boots with a Thirties tea dress; a distressed wrought iron bed swathed in a gilt-beaded Megan Park throw. And you can never resist a bit of razzle dazzle in your daily life – sequins on your handbag, crystal on your dining table.

## Urban Experimentalist

### Colour Zones: Rich Violet, Rich Yellow, Rich Neutrals

You're so up with the trends that you've already unearthed hot new designers before even the glossies have spotted them. You're cool and confident, investing in bold, dramatic colours and unusual accessories, all with a sassy edge and a generous nod to the season's mood. Whether it's a chic, slouchy handbag to complement your Marc Jacobs-inspired urban girl look or cut velvet cushions to contrast with the clean lines of your modernist sofa.

You have an unfailing eye for sophistication and style, the epitome of understated chic. There's more than a hint of the Audrey Hepburn's about you – timelessly classic, from Jo Malone oils to the little black dress in your wardrobe (of course, perfect with pearls). You team antique finds – from old-fashioned china to a delicately embroidered shawl – with soothing neutrals to create an atmosphere of tranquil charm. The very model of ladylike chic this season.
